STARTLING NEWS FROM THE SOUTH. Some intelligence of a highly important notither an army, nor a capital, nor a government. This is, indeed, startling news; but your readers will not forget that for more than four years the Southern people have heid, nor as long as they have an army of 80,000 men in the field. Of all these places, he factories and founderies at Danville and vnchbnrg are the only ones that are now in peration, and even they are no longer considered safe. They will probably be destroyed or blown up in a few days. Those at Raleigh and Mobile were removed, it is said, a week or two go. These at Macon and Auguata, t is said, have been destroyed quite recently. Those at Al-lanta, Charleston and Savannah were removed before those places were evacuated. Those at Columbia, Camden, Cheraw, and Favetteville eii into the hands of General Sherman. Thus the South is unable to carry on the contra much longer. THE BUBBLE OF FOREIGN INTERVENTION BROKEN AT LAST. It is said, also, that news has been received by the Confederate Government from Paris which is of such a nature sa to dispei finally the delusion of active foreign intervention lu their favor, to which they have ail slong cinns with unwavering pertinacity. They have hoped, to the last moment, that motives conself-interest alone would have induced the Emperor of France to Interpose and preven the conquest of the South by the North in or-der that he might have a powerful ally, in-stead of a powerful foe, on his Mexican frontier, and in order that he might secure the tier, and in order that he might secure the vast advantages which a commercial treaty with the South would secure to France. But this pleasing delusion has now faded out. It is said, on the other hand, that Mr. Slideli has informed President Davis that it is now beyond all doubt that the French nation will not interfere in favor of the South; that the Emperor Napoleon has caused an official intimation to that effect to be conveyed, quite recently, to Mr. Biggiew, and that the consider centily, to Mr. Bigelew, and that the consideration therefor is, that the Mexican empire is to be recognized by the Government of the United States, and that a minister from the

Johnston's were destroyed. UNCONQUERABLE SPIRIT OF GENERAL LEE AND Indians were subsequently driven off.

General Lee, however, does not think of submitsion. He intends to fight one desparate battle, at least—perhaps two. He is confident of victory, too; for he believes the defences of Richmond to be impregnable. And even if he is defeated, his army, it is said, will not be anuibilated, nor will it surrender. At the worst, General Lee can lose in these battles not more than twenty thousand many administration and the building of a telegraph line along the the not more than twenty thousand men, and with seventy thousand such soldlers as he will have left, he can prolong the war, or cles invade the North. Such are the dreams in which he and his officers indulge. But no one which he and his efficers indulge. But no one else at the South Indulges in such sanguine hopes. The Southern people are nusubdued in spirit, but they are convinced of the fullity of further resistance to the power of the North. Another thing of which they are painfully convinced, too, is that they have been defuded in thinking that because their cause, the cause of free government and of consitutional liberty, was just, that therefore it must for that reason succeed.

In the Democrat vesterday we noticed the fact that Mr. Lightburn had declined the canvass for Tax Receiver and undertook to transfer his friends to the support of Donald McPherson. We stated that the untural in ference was that Mr. Lightburn, having failed to receive the indorsement of the Loyal Lague, declined the contest in favor of McPherson, who is the favorite of the League. In stating this matter we made no assault upon Mr. McPherson, but only took the oc casion to state that Mr. Rammers is in no favor with this secret association. Thercupon McPherson sends us another card. We propose to keep our readers and the public advised in matters of interest to them, and herein will state that McPherson and Lightburn determined who should have the field in a single contest against Mr. Rammers, by drawing straws for the same. Mr. McPherson was winner in this small lottery affair, and so he is to gather to his support all of Lightburn's friends and all the anpport of the Loyal League. In stating this fact we did Mr. Mc-Pherson no injustice. But we refer our readers to his card for further information. In his first card he disclaimed all knowledge of the call upon Mr. Snmmers, who was to be used to divide the vote with Mr. Rammers, and co make an easy race for his competitors.

Now, if Mr. McP. is a favorite of the Loyal Leage, he knows nothing of it. He wants us to assist our friend Rammers without placing him (McPherson) in a false position. If cailng the attention of the public to the scheme and manenvers of Mr. Rammers' opponents, whereby they can compass his deteat, places Mr. McPherson in a false position, he must wriggle out of it as best he can. The fact that the League favors his election over Mr. Rammers is sufficient evidence to our mind that he

To Candidates for the Office of School

Trustee. The higher grades of our public schools are said to be well conducted. The lower ones are managed very badly. Members of the School Board seem to bave paid lit'le attention to them, parents still less; and, in consequence, children fail to receive the benefit they ought to receive, and which an intelligent elucational system, and no greater expenditure of money, would atonre to them. Parents have confmitted a great wrong in the disregard they have pald to this matter. I will not say what wrong, in my opinion, has been inflicted by

wrong, it in opinion, it is school Board. They are business mer, occupying uspaid and thankless offices, and cannot be expected to give much time to official dulles. Parents assume it as a matter of conrec that their children are being educated in the best possible manner. Teachers know better: but when consulted respecting a correction of errors, reciy, they have no power to alter or amend, and refer inquirers to the Superinendent, That gentleman admits the objeclions, but tells you it is his province only to advise—the Board is the power, apply to them.
You do so, and learn, to your surprise, they
know very little about it. This was precisely my experience in one instance. True, I saw but few insubers, but of these, no one was inily informed of the course of sindy pur-sued. I called their attention to seknowledged evils; but I could not interest them and, like them, I dropped the matter to give my time to private affairs. But I no longer wondered that cylls existed.

One of these evils is a spelling book-any spelling book; and without examining others I believe there can be few worse than the one in use—Sargent's. How many of those who read this arilcie ever before met the following words, hastily selected from the first few pages of the "Standard Speller?"

The discharges being as rapid for a time as the ticks of a lever watch, the discharges of the group seemed one continuous flashes of the gans seemed one continuous and steady bloze. Geo. T. Wood, Alfred Allen, R. J. Browne, 8. E. Delisven and Wm. R. Thompson were appointed a committee by the House of Repntatives of the General Assembly, under e following resolution:
Resolved by the General Assembly of the Commonuscill of Kenlucky, That leasmuch as a committee of the House of Representatives have reported that they had heard evidence conducing strongly to show that Joshus F. Bullitt, a Judge of the Court of Appeals for this Commonweaith, was unity of belonging to a treasonable association, it is therefore the opinion of this Legislature that the said Bullitt's continut should be investigated and that int's conduct should be investigated; and that to this end a committee of five members of the House of Representatives shall be appoint ed to propose resolutions addressing him out of office, to be reported on the third Tucsday in May next; that it shall be the duty of this in May next; that it shall be the duty of this committee to cause the attendance of witnesses on process to be issued by said committee on that dry, who shall be examined in presence of the two Houses, in joint assion, by a member of the Legislature, selected by joint ballot of the two Houses, to conduct the examination, who is also to appear throughort in support of the presention; that the committee shall clean of the presention; that the committee shall clean of the present points to Indeed. mittee shall also give personal rotice to Judge Bullitt of the sitting of the Legislature, and of his trial, if he is to be found in the State, or by advertisement in the Louisville Journal nd Democrat in the event of his absence; and that he be permitted to appear in snewer to the charges in person, or by counsel, at the bar of the Legislature in joint session; that

said Bullit may have process to procure the attendance of witnesses at the investigation; that the testimony shall be taken down in writing by some competent person, to be sexceed by the Speakers of the two Houses. JAMES B. LTNE, Clerk. The Hou, Joshua F. Bullitt is notified to appear as directed by the above resolution. The committee will meet in the city of Louisville, at the Louisville Hotel, on the 30th day of March, 1865, and continue in session a reasonable time, to issue summons, if required, and perform the duties of the resolution All persons knowing the names of witnesses

the chairman of the committee.

G. f. Wood, Chairman. March 6, 1865. To the Citizens of Louisville.

The committee appointed by the General Council to attend to the disbursement of the bounty fund beg leave to call the attention of the citizens to the following facts:

The fund, \$200,000,appropriated by the city, is only sufficient to pay bounty to 666 2-3 men. The amount to this date contributed by the \$25 subscribers to the bounty fund is \$39,200,which will only pay bounties to 140 men. Thus, the two funds combined will pay for but 797 men. There have been already enlisted to the credit of the city 442 men, and there are now 450 men more who offer to enlist. When they shall be enlisted, it will make the unmber credited to Council to attend to the disbursement of the

more who oner to enlist. When they shall be enlisted, it will make the number credited to Louisville 892 men, which is 95 men more than the 'wo fauds (as at present) combined will pay. Besides, even if this number of 892 men should be paid, there would still be a deficiency o. 366 men; and unless this deficiency is made up the draft will be ordered. In addition to the 450 men, now about to be enlisted, others can be procured: they are daily d, others can be procured; they are daily offering and there will be no difficulty in proring enough and more than enough men to I the city's quota and avoid the draft. Let the citizens, therefore, come forward at once and subscribe to the fund, so that we may not have to turn away the volunteers for want of funds to pay the bounty. This we must do, unless the citizens promptly come forward to-morrow; for, as before observed we have already more men ergaged than the fund will now pay. Let every citizen take an interest in the matter, and not be satisfied others to come forward and subscribe. not cease his work till enough money is raised to pay off the city's quota. WM. KATE, Mayor, Ch'a.

SAMUEL M. MILLER, JOHN D ORRILL, JOS T. TOMPKINS, JOHN CARTER, HENRY WOLFORD, March 5, 1865-dtf.

Notice. The bonds of the city of Louisville, to the amount of \$300,000, anthorized to be issued to raise a bounty furd, will be ready for sale as soon as they can be printed and filled up, which will be in a few days. The bonds are for \$1,000 each, with coupons

attached for semi-annual payment of interest; one hundred of the bonds being payable ten years after date, and the other hundred paya-ble twenty years after date. That the citizons of Kentucky, especially of Louisville, may have an opportunity of making an investment in the purchase of the bonds to such amount as they may wish, those who desire to purchase will please at once address the Mayor of the city, giving their names and residence, the number and character of the bonds proposed to be bought, and the highest price they are willing to pay therefor. This invitation for proposals is not however, limited to citizens of Keutucky. Wm. Kate, Mayor. Pebruary 23, 1865.
